

How to Use the Closed Back Studio Headphones

Instructions

1. Ensure the volume on your device is set to low before connecting **Closed Back Studio Headphones** to reduce risk of injury.
2. Place headphones over ears.
 - a. If **Closed Back Studio Headphones** require cleaning, use a dry cloth on ear pads and headband.
 - b. A dry cloth can be used to clean the plug to reduce intermittent noise caused by dust.
3. If using **Closed Back Studio Headphones** directly with the Digital Studio computer, the 6.3mm adapter may need to be removed.
 - a. Gently turn the adapter in a left rotation until it comes loose from the headphone jack.
 - b. Plug the 3.5 mm adapter into the headphone port on the front of the Digital Studio computer.
 - c. Return the adapter to its original place after use.
4. If using headphones with the Focusrite Scarlet 18i8, the 6.3mm adapter may need to be added.
 - a. Gently turn the adapter in a right rotation over top of the 3.5mm headphone jack until it feels firm. Do not overtighten.
 - b. Plug the 6.3 mm adapter into the headphone jack on the front of the Focusrite Scarlet 18i8.
